

Glastender®

BOTTLE DISINTEGRATION SYSTEM

Features

Our Bottle Disintegration System reduces the volume of glass bottle waste, minimizing clutter for more efficient bar use.

Easy to Use

Turn the unit on with the flip of a switch, then push a bottle down the chute. A green light indicates the unit is running, while a red light signals the bucket is full or there is an operational error.

Quiet

Crushes a bottle in mere seconds, while being no louder than a standard blender.

Safe

Multi-level baffle system on feed chute ensures safe operation and glass containment. Closed door safety sensor prevents operation when the front door is open to avoid injury.

Compact

Designed to fit into the underbar or in a service station.
